

Centro de Biotecnología y Genómica de Plantas Campus de Montegancedo Autovía M40, Km 38 28223. Pozuelo de Alarcón. Madrid

PhD Position

Position Profile:

PhD student with Masters degree in Biology, Biochemistry, Biotechnology or related fields. Experience in *Medicago truncatula* biology, and/or arbuscular mycorrhizal fungi will be valued. Proficiency in either English or Spanish is required.

Description of Work:

The successful candidate will work at Centro de Biotecnología y Genómica de Plantas (<u>www.cbgp.upm.es</u>) in Madrid, Spain. He/she will undertake a multidisciplinary project to study the physiology and biochemistry of *M. truncatula* transporters involved in metal exchange with associated endosymbionts. This project is part of the ERC Starting grant METALSYM (2014-2019).

Duration of contract:

1 year. Upon positive evaluation, the contract can be renewed on a yearly basis for up to three years.

Salary:

€16422 per annum (equivalent to FPI grant)

Start date:

February 2016

Application deadline:

15.October.2015

Contact:

Interested candidates should send their CV and contact information of one reference to Dr. Manuel González Guerrero (<u>manuel.gonzalez@upm.es</u>).
