

Company-Sponsored International MSc Program 2023-2025

Would like a career in the Dairy sector working for an international company?
Are open to learning a new language and facing interesting challenges?

If so, this offer is for you!

We are offering a Company-Sponsored Master's degree at ESA with a major **French International Dairy Production Company**

Successful candidates will

- spend two years in France - with an additional 4 to 2 months of intensive French prior to the program depending on their current level of French
- receive high level training in technical and managerial competencies and learn a new language (French)
- have all expenses costs (travel, tuition, insurance) covered
- study half time at ESA and work half time in the company with a tutor.
- successful graduates earn a Master of Science in Engineering from Ecole Supérieure d'Agricultures Angers Loire (ESA)
- work for a minimum of two and a half years for the sponsoring company in Spain after the program in France.

The program is managed by ESA, a major institution of higher education in the field of Life Sciences in France.

Successful completion of the program earns an entry-level management position in the sponsoring company's industrial site in Spain after the end of the program.

Requirements:

Candidates must have:

- A completed Bsc or Msc in one of the following domains **Food Sciences, Agronomy, Food production, Microbiology**
- a strong motivation for a career in the dairy industry
- A **certified B2 level in English** (equivalent of 700 points in TOEIC)
- A **good level of French at least A2** if you are coming after June 2022
- A desire to learn new cultures and a new language (French)
- A real capacity to overcome challenges and to develop new competencies
- An experience abroad would be appreciated

You must be under 28 on September 1st 2023 to apply (French labor law contract)

Application process:

Applications online to ESA at <https://olage.groupe-esa.com>

Click: I²F^A program: Engineer-Master's Degree - Sandwich Course: Company Sponsored
Deadline: April, 20th 2023. Only fully completed application files will be examined.

The selection process is in two steps. ESA will examine your application and will contact you for a first interview in English by one of their team. If ESA decides you are a solid candidate, we will pass your file on to the company.

ESA will then arrange final interviews with the local team and candidates. The company makes the final choice. The program begins in early June 2023 for those who need additional French lessons (already an A2 level) and August 2023 for French speakers (B2 level).
