BIRS-IMAG Workshops 2024

05/05/2024

Esta serie de Congresos BIRS-IMAG es un muestra importante de la investigación actual en Matemáticas y sus múltiples conexiones.

BIRS-IMAG Workshops 2024
May - June, 2024

- May 5, 2024 to May 10, 2024**
Towards infinite dimension and beyond in quantum information
Organizers: Andreas Winter (lead organizer, Universidad Autónoma de Barcelona), Nilgün Datta (University of Cambridge), Anuj Chopra (University of Toronto) and Ludovico Latta (University of Jyväskylä)
- May 12, 2024 to May 17, 2024**
Generalized Geometry meets String Theory
Organizers: Yolanda Cortés (lead organizer, Universidad de Burgos), María García Fernández (Universidad Autónoma de Madrid), Antonio García-Río (Universidad de Salamanca), Pedro Sánchez (Universidad de Salamanca) and Marco Squellari (University of Toronto)
- May 19, 2024 to May 24, 2024**
Positive Solutions of Polynomial Systems Arising from Real-life Applications
Organizers: Eduardo Feliú (lead organizer, University of Copenhagen), Alicia Dickenstein (University of Buenos Aires), Fredericihan (University of Bordeaux) and Timo de Wolff (TU Braunschweig)
- June 2, 2024 to June 7, 2024**
From Evolution to Bioengineering of Biological Patterning Mechanisms – Mathematical Advances and Challenges
Organizers: Dagmar Iber (lead organizer, ETH Zürich), Fernando Fernández Casares (Universidad Pablo de Olavide), Kristina Heister (University of Michigan, Biology Laboratory) and David M. Usher (University of Warwick)
- June 9, 2024 to June 14, 2024**
PDE Methods in Machine Learning: from Continuum Dynamics to Algorithms
Organizers: Volker Crone (lead organizer, University of California, Santa Barbara), Lenné Christ (EPFL), Qin Li (University of Wisconsin-Madison) and Joah Bruno Eichrich (New York University)
