RESULTADOS DE APRENDIZAJE (Objetivos)

The main objective of the course is the initial teacher training in the field of Visual Arts in Elementary Education. This course is the only compulsory training in Art Education that future teachers are expected to attend. The course tries to provide conceptual, procedural and attitudinal knowledge for the students' basic training as Elementary Education Teachers. Specifically, the course deals with the artistic training from the fundamental contents of the Visual Arts discipline.

The desirable objectives of the teaching/learning process are:

- To critically value the different theories around Art Education throughout history.
- To know the psycho pedagogical and methodological principles and rules in Visual Arts in Elementary Education.

- To know the different teaching models in Visual Arts and learn to value them as complementary pedagogical methods as well as to be able to implement them for different objectives.
- To comprehend and to use artistic languages as unique forms of knowledge and expression, understanding that art is a way of knowledge of the world and our stance on it.
- To learn classical artistic techniques and materials such as drawing, painting, sculpturing, photography, engraving, puppetry, etc. and to develop from them projects of artistic creation, both individually and in groups.
- To learn about contemporary art techniques and materials such as video, digital photography, installations, happenings, performance, land art, TV, phone, etc., and to develop from them projects of artistic creation, both individually and in groups.
- To develop general knowledge related to Visual/Artistic Expression. To know the fundamentals of art and visual expression as well as the didactics related, so that they are used as learning tools.
- To be sensitive to the aesthetic and visual messages and enjoy, appreciate and critique art-works and artistic images in general, paying special attention to contemporary creations.
- To use visual languages in order to teach, document, describe, build stories and narratives that help us to reveal and understand in depth the complexity of life and visual expressions. Likewise, to use different procedures and various expressive means of representation and communication (as well as designing and using teaching and learning tools based on the images).
- To awaken an interest in Visual Arts and acquire personal skills to be used as pedagogical tools in the classroom in order to promote the integral development of students in elementary education.
- To develop the models proposed by the current legislation so that they might be effectively adapted to the possible educational situations.
- To strengthen the skills for critical analysis and planning in order to integrate and interrelate the visual content to other subjects in the speciality, and thus developing the ability to work in an interdisciplinary team.
- To reflect on and to verbalize the problems of art and the solutions provided by different cultures.
- To appreciate the observation of the environment as a stimulating means of representation and artistic creation.
- To draw up creative didactic units which develop content, objectives, methods and assessment in the Teaching and Learning of Visual Arts.
- To launch initiatives that relates the contemporary art and its social actors to the prevailing educational world.
